

Elizabeth Lenck
Network Associate
Brevard Public Schools; MILA Elementary

September 10, 2024

To whom it may concern,

As a Network Associate at MILA Elementary, I had the privilege of working with Anthony Chipner while he was completing his internship with Eastern Florida State College. During the time I worked with Mr. Chipner he was eager to learn and assist. The students, teachers and staff on my campus appreciated all the work that Mr. Chipner put in. My interactions and the feedback I received from my teachers and staff were all in agreement that Mr. Chipner came every day with a positive outlook. He was happily willing to lend a helping and deeply knowledgeable when assisting any type of technology issue. Mr. Chipner was able to quickly notice the protocols in place and followed them well with all the technology at the school.

Mr. Chipner came to MILA jumping in to organizing, helping teachers and students with setting up computers during the first month of school. He has shown that he cares for the needs of others, is flexible in his schedule to accommodate situations that arise and truly knowledgeable in what he does. It is because of these qualities that I feel he would excel in all he does.

Sincerely,

Elizabeth Lenck
Technology Associate
MILA Elementary
